The Nintendo 64 Controller™

Control Stick Function:
The Nintendo 64 Control Stick uses an analog system to read the angles and directions of its movement. This allows precision control that is not possible using the conventional + Control Pad.

When turning the Control Deck power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the picture on the left) when the power is turned ON, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the picture on the left) then press START while holding down the L and R Buttons.

The Control Stick is a precision instrument; make sure not to spill liquids or place any foreign objects into it. If you need assistance, contact Nintendo Consumer Assistance at 1-800-255-3700 or your nearest Nintendo Authorized Repair Center™.

Holding the Nintendo 64 Controller:

While playing Mario Kart 64, we recommend you use the hand positions shown at left. By holding the controller like this, you can operate the Control Stick freely with your left thumb. Using your right thumb, you can easily access the A, B or C Buttons. Place your left index finger where it feels comfortable, but not in a position where you might accidentally press the Z Button on the back of the controller.

Connecting the Nintendo 64 Controller
Up to four players can play this game. Connect each player's controller to the appropriate controller socket on the front of the Control Deck. Beginning on the left, the sockets are for Player 1, Player 2, Player 3 and Player 4. You cannot start the game if the first controller socket is empty.

If you change the connection during the game, you will need to either press RESET or turn the power OFF to make the new connection active.

You must use two, three or four controllers in order to play the 2-, 3- or 4-Player game modes.

Correctly insert the Game Pak into the Nintendo 64 Control Deck and move the POWER switch to the ON position. Make sure not to touch the Control Stick at this time. When the demo begins, press START to display the Title Screen. Press START again to display the Game Select screen.

1. How Many Players?

First, use the Control Stick to select your choice. Press the A Button to confirm. When selecting 2-4P game modes, make sure that the correct number of controllers have been connected.

2. Which Game Mode?

Next, select which of the four game modes you want to play. Some modes can only be played by a certain number of players.

		1P	2P	3P	4P
MARIO GP	Eight racers will compete in a series of races for points. Racers not selected by a player are controlled by the computer.	◯	◯	✕	✕
VS	Compete with two, three or even four players in split-screen action.	✕	◯	◯	◯
BATTLE	This mode leaves the players off in an attempt to pop the balloons that are attached to Karts. You'll compete on special courses.	✕	◯	◯	◯
TIME TRIALS	You will drive solo for three laps around your favorite course to get the best time. Best times are saved in Game Pak memory.	◯	✕	✕	✕

For the details about each mode, please see "Game Modes" beginning on page 8. On the Select Screen for each mode, confirm your choice by pressing the A Button, and cancel with the B Button. To make a selection, you can use the + Control Pad as well as the Control Stick.

3. Which Size Engine?

When you select either MARIO GP or VS modes, you must decide which size Kart engine to use. There are three sizes available: 50 cc, 100 cc and 150 cc. Karts with larger engines will be faster and more difficult to drive.

After setting all selections, "OK?" will flash on the lower-right corner of the screen. Press the A Button to confirm.

4. Which Character?

When the Player Select screen appears, select the character you want to use for racing. There are eight characters to choose from. For details about each character, please read the following page.

5. Which Course?

Last, you must select the course on the Map Select screen. There are sixteen courses for racing and four courses for battle, making a total of twenty courses. How to select the course differs depending on which game mode has been selected!

It's time to start!

The eight racers in Mario Kart 64 are split into three groups, and each character has unique features. No matter which one you choose, the maximum speed of all the Karts is about the same. Try playing with different characters to find the one that best suits your style.

PEACH

TOAD

YOSHI

MARIO **LUIGI**

The middleweights are well balanced and don't have between pros or cons.

DONKEY KONG

WARIO

BOWSER

Pros
- The lightweights accelerate well and get a good position off the starting line.
- Due to their light weight, even when they leave the course onto sand or grass, they won't lose much of their speed.
- Compared to the middleweights and heavyweights, their maximum speed is slightly higher.

Cons
- When turning corners without sliding, they lose much of their speed.
- When they crash into heavyweights, they will usually be thrown around.

Pros
- When turning corners, even when not sliding, they won't lose much speed.
- When they make contact with another Kart, they usually won't be thrown out.

Cons
- They do not accelerate very well. It takes them a long time before reaching their maximum speed.
- Because of their weight, when they drive on sand or grass, their tires will sink in, rapidly reducing their speed.

Mario Grand Prix

You will race a total of four courses in each Cup of the Mario GP. You and the other Karts (a total field of eight racers) will compete for the best combined rank. Keep a watch out for attacks from the other racers who can crash into you or harm you with items. Because of this, drivers who have the best driving techniques won't always finish the race in the lead.

Four Cups

There are four Cups in Mario GP. Each Cup consists of four unique courses. To begin, select the Cup you want to participate in on the Map Select screen.

| Mushroom Cup | Flower Cup | Star Cup | Special Cup |

As you progress from Mushroom to Flower to Star and finally to the Special Cup, the length of each course gradually increases, and they will have more complex corners and traps. It is recommended that beginners first challenge the Mushroom Cup.

Mushroom Cup

Luigi Raceway · Moo Moo Farm · Koopa Troopa Beach · Kalimari Desert

Flower Cup

Toad's Turnpike · Frappe Snowland · Choco Mountain · Mario Raceway

Star Cup

Mario Stadium · Sherbet Land · Royal Raceway · Bowser's Castle

Special Cup

DK's Jungle Parkway · Yoshi Valley · Banshee Boardwalk · Rainbow Road

The information displayed on the screen differs slightly between the 1-Player and 2-Player modes. During play, use the C 👆 Button to toggle through the different displays.

The Game Screen

1 Player

A Type

Lap Counter

Top 4 Positions

Player's Rank

Item Window
(Only visible when you have an item.)

Total Time

Course Radar
(The large mark indicates your current position.)

B Type

Speedometer

C Type

Rank Data
You can see the comparative position of all the racers. Racers around the screen equals one lap of the course.

2 Players

A Type

Item Window

Total Time

Player's Rank

Lap Counter

Rank Data
After completing one course lap, your rank indicator will return to the left side.

B Type

Item Window

Player's Rank

Course Radar

You can select their own display type.

Rules

Laps
Three laps per course.

Driver's Points
If a player comes in fourth place or better, they receive Driver's Points and will advance to the next course. Place fifth or lower and a menu will appear after you reach the goal. Select RETRY to restart the same course.

	1st Place	2nd Place	3rd Place	4th Place
	9 Points	6 Points	3 Points	1 Point

4th Place Or Better

5th Place Or Lower

5th

When you play the 2-Player mode, if either player places fourth or better, both will advance to the next course.

Trophy
Trophies are awarded to the drivers who have scored the highest cumulative points after the four races of each Cup are completed. First place receives the Gold, second gets the Silver and third place must settle for the Bronze. Trophies earned are saved into Game Pak memory automatically and will be displayed on the Map Select screen.

The trophies are given based on the engine size that is selected. If you can 150 cc engine and win the gold trophies in all four Cups, you will be able to experience a wonderful "bonus"...

Pause Screen
If you select QUIT on the Pause screen during the race, you will return to the Map Select screen.

Times from Mario GP are not saved into Game Pak memory.

VS

Two to four players can play the VS game choosing their favorite characters and courses. Players have their own screen to watch, but to make the most strategic use of their items, players should check the other players' screens and pay attention to their opponents' movements.

Course Selection

Select your favorite course from any of the sixteen courses in Mario GP. Each race is three laps. First, select a Cup, then select the course you want to drive from the four available.

The Game Screen

2-Player Games

The screen is the same as Mario GP except no Total Time is displayed.

3-Player Games

You can toggle the Rank Data display ON or OFF by pressing the C ▶ Button. The course radar will be displayed on the lower right screen.

4-Player Games

Press the C ▶ Button to switch the display between the Rank Data and Course Radar.

Win /Lose

Once the lowest ranking player is determined, the game is over. On the Result Screen, each player's score will be displayed. In 2-Player games, the number of wins for each player will be displayed. In 3- and 4-Player games, the number of first, second and third place finishes will be displayed. (This score is temporary and will be erased when the Control Deck POWER is switched OFF.)

After the game is over, a Menu screen will appear. Select from the following:

RETRY .... Retry the same course with the same character.
COURSE CHANGE .... Select a new course.
DRIVER CHANGE .... Select a new character.
QUIT .... Quit the VS mode, and return to the Game Select screen.

Except for RETRY, you can select any of the above on the Pause screen as well.

Advice for VS Mode

Mini Bomb Kart

On the course, you will see Mini Bomb Karts. If you hit one, you will crash and lose time. To best avoid it, remember its location and reduce your speed right before you get to it. Although difficult, it is possible to jump the Mini Bomb Kart by pressing the R Button.

Item Techniques

Part 1: Block With Item

Press and hold the Z Button to set the Green Shell, Red Shell, Spiny's Shell, Banana or the Fake Item to the ready position at the rear of your Kart. When you release the Z Button, it will fire (or drop to the ground). When set in the ready position, these items can deflect the attack of shells that come from behind. Also, other being set to ready, the Item Window will stop. If you pass from Boxes, you can stock another.

Part 2: Throw Items Forward or Back

The Banana or Banana Bunch items can be thrown forward by pressing ▲ on the Control Stick. Also, the Green Shell can be fired back by pressing ▼ on the Control Stick.

Part 3: Use Thunder Bolt Wisely

When invincible from the Super Star, or invisible from Boo, an opponent can avoid the Thunder Bolt effect. Before using a Thunder Bolt, check to make sure what the other players are doing.

Part 4: Avoiding the Banana Slip

If you run over a banana while turning, you will always slip. However, if you are going straight and hit a Banana, press the B Button when you're unbalanced, and sometimes you won't slip. If a ♪ mark appears above your character's head, you've succeeded.

For detailed information regarding each item, please see the Mario Kart 64 Operation Card.

Battle

Your goal in this mode is simply to eliminate your opponents, not to be the first across the finish line. Because of this, it's very important to keep the other players' positions in mind.

Course Selection

You can select any of the four courses that are available only for the Battle Mode. Please see pages 34 and 35 for Course Maps.

The Game Screen

Course Radar

Course Radar

Course Radar

Each player's position on the game screen is the same as the VS mode. There are no alternate displays.

Rules

Three Balloons

Three balloons are attached to each player's Kart. When their balloons have all been popped, they are out. The last surviving player is the winner.

Popping Balloons

Part 1: Slip on a Banana, or collide with an opponent.
Part 2: Hit Shells or Fake Items, etc.
Part 3: Fall off the edge of the course.

When You Have No Balloons Left

In the 3- or 4-Player mode, when players lose all of their balloons, they are transformed into "Mini Bomb Karts" and forfeit the ability to win the game. Although they cannot win, they can still collide with other players and cause them to crash. Mini Bomb Karts can explode only once, and after that can no longer participate. A Mini Bomb Kart cannot use items and will not be displayed on course radar.

Battle Mode Advice

Be aware of the other players' positions. Check the course radar constantly, making note of your position in relation to your opponents.

Anticipate Your Opponents' Moves

It's not easy to attack when both players drive in the same direction. By anticipating an opponent's route, you can easily ambush them.

Use Spin-Turns Wisely!

To change direction on narrow roads, or when you want to direct a Shell at an opponent, turn and press the A and B Buttons simultaneously, to do a Spin-Turn.

Time Trials

In this mode, your goal is to just drive as fast as you can. There are no good or bad items to affect your play as in the other game modes. Perfect your driving technique to score the best times.

Course Selection

Just like the VS mode, select your favorite course from any of the sixteen Mario GP courses, and drive three laps. In Time Trials, the courses do not have Item Boxes.

The Game Screen

Just like the Mario GP 1-Player mode, you can select from three different display types. Hint: Use the display with the speedometer if you'd like to answer the all-important question, "How can I turn the corners without losing speed?"

Items

To start, you will begin with one Triple Mushrooms Item. This allows you to do three dashes anywhere you want during the three laps. Where you use this item can make a big difference in your time.

Result Screen

After crossing the finish line, the lap time and the total time will be displayed. If any of the lap times surpass the previous best record, the new time will be displayed as the Best Lap. If the new total time is in the top five, Best Record will be displayed. Records are automatically saved into Game Pak memory.

Menu Selection

After the race results have been displayed, you can select your choice from the menu. COURSE CHANGE, DRIVER CHANGE and QUIT are the same as the VS or Battle mode. There are three additional choices found only on the Time Trials result menu.

Retry

Challenge this course again with the same character competing against your Ghost.

What is Your Ghost...?

Your Ghost is "A recording of the course's best time" played during Time Trials. While racing, the driving data is temporarily stored. Later, when you RETRY, a half visible character will drive exactly in the same manner as the other disk. With this ghost as reference, scoring the best time should be easy.

- If you don't finish the course (or if you Pause while racing), the ghost won't be saved.
- If you take too much time to reach the goal, or if you make severe driving mistakes (becoming trapped, leaving the course, etc.), sometimes the ghost will not be recorded.
- When the Ghost data cannot be stored, a message will appear under TIME on the game display.
- If you select COURSE CHANGE, DRIVER CHANGE or QUIT, the temporarily stored Ghost data will be erased.

Replay

After you finish the course, you can replay your game play just like a videotape. A part of the Ghost function, this item is not available from the menu if your driving record cannot be saved. On the Results menu, if you select any item other than REPLAY, it cannot be watched later.

Saving the Ghost

Your Ghost data cannot be saved to Game Pak memory. However, you can save the data for two different courses if you use an N64 Controller Pak, (sold separately). For details, please read pages 20 through 22.
Data

On the DATA screen, you can view the best lap and total time records for each course. On the GAME SELECT screen, press the R Button or select the Time Trials mode, then select the DATA menu.

Move the cursor using the Control Stick and select the course that you want to see from any of the sixteen courses.

ERASE RECORDS FOR THIS COURSE

Select this when you want to erase the Best Record and the Best Lap of a course from the Game Pak memory.

ERASE GHOST FOR THIS COURSE

Use this menu item to erase Ghost data previously saved to an N64 Controller Pak (see page 21).

Using the Control Stick, you can view the records from the other courses in order.

Advice for the Time Trials Mode

Slide Through the Corners

In most corners, you can just keep the throttle wide open and hold the R Button to slide through the turn. While sliding, your speed won't decrease even as you turn. To get the best time, learning how to slide is an important technique.

Advanced Sliding Technique (Mini Turbo)

If you want to turn in even faster times, it's recommended that you master the "Mini Turbo" technique.

To begin, start sliding as usual. You can tell when you're sliding by watching for white smoke rising from the rear of your Kart (it looks like "PU PU PU").

Next, as you slide, steer in the direction opposite of your turn, then quickly steer back in the original direction. If you succeed, the smoke will change to orange.

Repeat the same operation and, if you succeed, the smoke will change to red. While doing this you must keep pressing the A Button. It may be a little difficult, but it might be easy to understand if you imagine turning and continuously steering left and right.

When the smoke becomes red, release the R Button. For a moment, your speed will increase a little—watch the speedometer. This is sometimes called the "Mini Turbo." After steering in the opposite direction, the Kart will naturally return the steering to the original direction.

Rocket Start

When you start, if you press the A Button when the signal changes from red to blue, you can make a dash start at maximum speed, called a "Rocket Start." But if you press too early, the tires will spin and you will start even slower, so be careful.

By using an N64 Controller Pak (sold separately), you can save the Ghost data from two different Time Trials courses.

When you select the Time Trials mode menu, without an N64 Controller Pak in place, a message will be displayed on the screen. Although you will not have the option to save your Ghost data, game play and your course times will not be affected.

Before Saving the Ghost...

Before use, make sure to read the instruction booklet that accompanied your N64 Controller Pak. Do not remove or insert an N64 Controller Pak when the POWER switch is in the ON position.

1. Correctly install the N64 Controller Pak in Controller 1.
2. The data saved for this game will require 121 pages of the N64 Controller Pak's memory. If you are going to use an N64 Controller Pak that already has other game data saved, make sure to check the remaining pages on the N64 Controller Pak Data Menu screen.

The N64 Controller Pak Data Menu screen

After correctly installing an N64 Controller Pak, press and hold START, then make the POWER switch to the ON position, or press RESET. This will display the N64 Controller Pak Data Menu screen as shown at right. If the number of free pages is less than 121, delete any old, unwanted data until the free page display reads at least 121.

Caution: Once deleted, saved data cannot be restored.

Saving to the N64 Controller Pak

1. In Time Trials mode, finish your favorite course without leaving it to create Ghost data. During the drive, do not press START to pause.

2. When you RETRY, the ghost will appear and race along with you. This driving data will become the data that will be saved, if you reach the finish line before the ghost, the newer data will be saved for the ghost!

3. On the result screen menu, select SAVE GHOST. If this is the first time you have saved, the game data for Mario Kart 64 will be automatically created in the N64 Controller Pak.

4. Select one of the two available files to save to. If the ghost from that course has already been saved in either file; you will overwrite that file and the old Ghost data will be erased. Remember, two Ghosts from the same course cannot be saved.

If you turn the power switch OFF, press RESET or remove or insert the N64 Controller Pak while the data is being saved, it might not be saved correctly.

Loading Saved Ghost Data

The saved Ghost data will be automatically loaded and displayed when you select to play that course in Time Trials.

On the DATA screen, when you want to erase the Ghost data file saved to the N64 Controller Pak, select the course from which the Ghost is saved and select ERASE. You will be asked to confirm with the message GHOST DATA FOR THIS COURSE WILL BE ERASED. IS THIS OK? If sure, select ERASE.

A course with saved Ghost data will display GHOST on the top of the course map.

Error Messages When You Use An N64 Controller Pak

If something goes wrong when you use an N64 Controller Pak, an error message will be displayed. Use the following solutions for each message.

N64 CONTROLLER PAK IS NOT DETECTED. IF YOU WANT TO SAVE THE GHOST DATA, PLEASE INSERT THE N64 CONTROLLER PAK INTO CONTROLLER 1.

Switch the Control Deck power to OFF, then insert an N64 Controller Pak in Controller 1. If you play Time Trials without inserting an N64 Controller Pak, you can still play the game normally, you just cannot save your Ghost data.

INSUFFICIENT BLANK PAGES ON N64 CONTROLLER PAK, GHOST CANNOT BE SAVED. 121 PAGES ARE NEEDED FOR THIS GAME. FOR DETAILS, PLEASE SEE INSTRUCTION BOOKLET.

As explained on page 20, use the N64 Controller Pak Data Menu screen to free up sufficient space. Normal game play does not require this data to be saved.

UNABLE TO READ N64 CONTROLLER PAK DATA

UNABLE TO CREATE GAME DATA

UNABLE TO SAVE THE GHOST

UNABLE TO CREATE THE GHOST

Make sure each component is correctly installed, and repeat the procedure. If these messages continue to appear, please contact Nintendo Consumer Service or the nearest Nintendo Authorized Repair Center.

On the Game Select screen, if you press the L Button, you will go to the Option screen and be able to select from the following:

Sound Mode

You can select the sound type during the game play. Press the A Button to change the menu.

Stereo:
Select this when you use a TV with the stereo sound (make sure that both left and right sound outputs from your N64 Control Deck are properly connected to your TV).

Mono:
Select this when you use a TV with monaural sound.

Headphone:
Choose this mode to enjoy a more natural sound when you use headphones.

Erase All Data

You can erase all the data saved in Game Pak memory and return it to original condition, just like when you played the game for the first time. Caution: Once deleted, saved data cannot be restored.

Copy to Another N64 Controller Pak

Using a second N64 Controller Pak, you can copy the Ghost data saved in one N64 Controller Pak to the other.

1. Prepare two N64 Controller Paks to have Mario Kart 64 data saved

2. The data saved to the N64 Controller Pak inserted into Controller 2 can be copied to the N64 Controller Pak in Controller 1. Make sure each N64 Controller Pak is inserted correctly, then slide the Control Deck POWER switch to the ON position

3. Select COPY N64 CONTROLLER PAK from the OPTION menu

4. The Ghost data files that are saved in both N64 Controller will be displayed. You'll be asked, WHICH FILE DO YOU WANT TO MAKE A COPY OF? Begin by selecting that file from the Controller 2 side

5. Next, you'll be asked, TO WHICH FILE DO YOU WANT TO COPY? Select one of the two slots on the Controller 1 side. The data file you have selected in step 4 will be copied to that location. If you already have data saved for the same course, only that slot can be selected

6. On the bottom of the screen, COPY will be displayed. Select it and press the A Button to decide. Note: The data file selected on the Controller 1 side will be overwritten and therefore will be erased

7. You can copy only one file at a time. If you want to copy the other file too, repeat the procedure starting with step 3

## Introduction to the courses

MARIO KART 64
COURSE MAPS

## Luigi Raceway (Distance - 717m)

☆ = Item Box Locations

Long straightaways and easy corners - the perfect course for beginners to practice their sliding

Koopa Troopa Beach (Distance - 691m)

= Item Box Locations   × = Watch out for Crabs

This course are meant to be the quietness that course are seen with the coming one there the crabs a little it the start of every stretch out there a might be made if you watch out the topo you cannot stop hidden yourself in of the little ditch as it if you hit one at the right right before the grain you

Moo Moo Farm (Distance - 527m)
○ = Item Box Locations   = Watch out for Chubby'

A peaceful round course with an audience of contented cows. The main surface is a little rough, but not too difficult. Watch out for the mole (Chubby who will occasionally pop his head out

Kalimari Desert (Distance - 527m)

= Item Box Locations   ← = Railroad Crossing

The trick is to time it so that the steam locomotive that crosses the course won't block you. If the train is crossing in front of you, you should temporarily stop. It's very dangerous to enter the train tunnel, even if it's a shortcut.

Toad's Turnpike (Distance - 1036m)
O = Item Box Locations

Normally karts should drive on a public road. But for some reason Toad's Turnpike is one of the courses. Drive in a way so that you won't block the large buses or trucks. Cutting one off or driving too close can cause accidents.

Choco Mountain (Distance - 687m)
O = Item Box Locations   = Watch out for falling rocks

This mountainous course climbs and descends through extreme altitude differences and has continuous sharp curves. Your skills at sliding can greatly affect your rank or time. Watch for the signs along the way warning where large rocks might fall on you

Frappe Snowland (Distance - 734m)
O = Item Box Locations   X = Lots of snowmen!

A frigid course under constant snowfall. Naturally the road is slippery. The snowmen you see might look cute, but run into one and you will crash. Don't get too close!

Mario Raceway (Distance - 567m)
O = Item Box Locations

Although the distance of one lap is fairly short, it has complex corners and numerous hairpin curves. This course, named after our mascot is highly recommended by the game designers as their favorite Time Trials course

Warlo Stadium (Distance - 1591m)

○ = Item Box Locations

Be careful not to fall when crossing the gap

That rascal Wario was in charge of the design and construction of this course. A fan of motocross races, he brought in major amounts of sand to fill this huge stadium in an attempt to build a course more suitable to bikes than Karts. Each lap's distance is extremely long, making it difficult to stay concentrated on the race.

Sherbet Land (Distance - 756m)

○ = Item Box Locations   X = Many penguins!

A very slippery world of ice populated by anxiously playful penguins. With all the penguins, one might think its location is near the South Pole. This is not a course for the faint of heart. You should take care not to slip and fall into the sea, which will result in your being temporarily frozen.

Royal Raceway (Distance - 1028m)

○ = Item Box Locations   △ = Be careful not to leave the course
Dash Zones

Of the three speedway-type courses, this one covers the greatest distance. The big jump after the dash zone is very dramatic. Without guardrails along the lake, it can be very easy to overshoot the corner and fall in!

Bowser's Castle (Distance - 777m)

○ = Item Box Locations   ✕ = Watch out for Thwomps!   △ = Watch for falling rocks!

Surprisingly, the bowser's castle has been maintained with a nice ground! Because it's inside the building, most of the corners are tricky right angles. However the most difficult part of the course is where the Thwomps are. They will block your path, and if you run into one, you will spin out. Should you be stepped on by one, you'll find yourself squashed flat as a pancake.

DK's Jungle Parkway (Distance - 893m)

○ = Item Box Locations

Dash Zone
The home of Donkey Kong, the jungle parkway was developed as a tourist facility and equipped with a racing ground for karts. Carved out of the jungle, the road is mostly narrow. Be careful—should you leave the course, the restless natives will "voice" their complaints by throwing stones at you.

Yoshi Valley (Distance - 772m)

○ = Item Box Locations   + = Watch out for porcupines

Steep canyons and a very large, complicated maze. Is there any other route to Yoshi? To make one lap, you can take any route you like through the complicated maze, but without keeping a careful eye on the course radar, you might drive the wrong way and end up returning to where you started. Of course, leaving the course is forbidden.

Banshee Boardwalk (Distance - 747m)

○ = Item Box Locations   × = Watch out for bats!
A dark and mysterious boardwalk over water within the confines of the manor. At the corners, some of the guardrails are missing, making it dangerous. At the old building that you pass through along the way, try not to run into the large army of bats.

Rainbow Road (Distance - 2000m)

○ = Item Box Locations

This course is the longest of all the courses. As the name implies, the road is marked by rainbow colors and with a fantastic view of neon sculptures twinkling in the distance. The final course of the Special cup, it is definitely worth seeing. It is advisable to slow down to avoid the Chomps that will attack.

Big Donut

O = Item Box Locations
This map is in the shape of a big donut. Because there is no guardrail along the inside, should you make a mistake, you will dive into the lava. Use the four walls to hide and ambush your opponents.

Double Deck

O = Item Box Locations

"Square" shaped floors four levels high are connected with ramps allowing you to go back and forth. Because the total area of the floor is wide, you might have lots of trouble trying to find your opponents.

Block Fort

O = Item Box Locations

The map consists of a series of floors, each three levels high. The four blocks are colored red, yellow, green and blue so you can quickly check your opponents' screens to find their locations.

Skyscraper

O = Item Box Locations
It's a wild battle on top of the skyscraper! If you fall off the building, you will lose one balloon. There are no guardrails to keep you from falling, so don't speed too much. A highly effective strategy for attacking your opponents is to crash into them in an attempt to knock them off instead of relying simply on the use of items.

3-MONTH LIMITED WARRANTY
(For Hardware, Game Paks & Accessories)

Nintendo of America Inc. ("Nintendo") warrants to the original purchaser that the product (hardware, game paks and accessories) shall be free from defects in material and workmanship for a period of three (3) months from the date of purchase. If a defect covered by this warranty occurs during this three (3) month warranty period, Nintendo will repair or replace the defective product or component part, at its option, free of charge.

ADDITIONAL 3-MONTH LIMITED WARRANTY (Hardware only)

Nintendo warrants to the original purchaser that the hardware product shall be free from defects in material and workmanship for an additional three (3) months beyond the original 3-month warranty period described above. If a defect covered by this warranty occurs during this additional 3-month warranty period, Nintendo will repair the defective hardware product or component free of charge. The original purchaser is entitled to this additional 3-month limited repair warranty only if the Consumer Proof of Purchase Card (attached to the hardware packaging when sold) is returned promptly after the date of purchase to Nintendo by the original purchaser or the original purchaser's retailer.

WARRANTY SERVICE OR REPAIR/SERVICE AFTER EXPIRATION OF WARRANTY

You may need only simple instructions to correct a problem with your product. Call the Consumer Assistance Hotline at: 1-800-255-3700 rather than going to your retailer. Hours of operation are 6 a.m. to 9 p.m., Pacific Time, Monday - Saturday, and 6 a.m. to 7 p.m., Pacific Time, on Sundays (times subject to change). If the problem cannot be solved over the telephone, you will be referred to the nearest NINTENDO AUTHORIZED REPAIR CENTER™ or you will be offered express factory service through Nintendo. In some instances, it may be necessary for you to ship the product, FREIGHT PREPAID AND INSURED FOR LOSS OR DAMAGE, to the nearest service location.

WARRANTY LIMITATIONS

THIS WARRANTY SHALL NOT APPLY IF THIS PRODUCT: (a) IS USED WITH PRODUCTS NOT SOLD OR LICENSED BY NINTENDO (INCLUDING, BUT NOT LIMITED TO, NON-LICENSED GAME ENHANCEMENT DEVICES, ADAPTERS, AND POWER SUPPLY DEVICES); (b) IS USED FOR COMMERCIAL PURPOSES (INCLUDING RENTAL) OR IS MODIFIED OR TAMPERED WITH; (c) IS DAMAGED BY NEGLIGENCE, ACCIDENT, UNREASONABLE USE, OR BY OTHER CAUSES UNRELATED TO DEFECTIVE MATERIALS OR WORKMANSHIP; OR (d) HAS HAD THE SERIAL NUMBER ALTERED, DEFACED, OR REMOVED.

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED IN DURATION TO THE WARRANTY PERIODS DESCRIBED ABOVE (3 MONTHS OR 6 MONTHS, AS APPLICABLE). IN NO EVENT SHALL NINTENDO BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY IMPLIED OR EXPRESS WARRANTIES. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Nintendo's address is as set forth on the back cover of this manual.

This warranty is valid only in the United States.

Mario Kart 64 Operation Card

NINTENDO 64

For detailed information on game operation, please read the accompanying Instruction Booklet.

(Nintendo)

L Button
While playing, use this to set the background music volume to On, Half or Off.

START
Pause

Z Button
Item Switch

Use this when you have item(s). For further details, see the reverse side of this card.

B Button
Brake

A Button
Throttle

To do a Rocket Start, press the A Button just before the signal light turns blue.

R Button

R — Tilt in the direction of the turn... As you hold the R Button, turn ◀ or ▶.

Slide
As your tires slide, you will skid sideways. Use this to take corners without losing speed.

C Buttons

Change Camera
(△) Standard Camera ⟷ Wide-Angle Camera (▷)

Toggle Game Screen
(◁) Not Used
Press ▷ to cycle through the available screen displays for each mode.

Item Switch
(▽) This is the same as the Z Button.

Control Stick

Steering
The further off center that you tilt the Control Stick, the sharper your turn will be.

When your Kart is stopped...

Items

When you run over the Item Boxes placed on the course, the Item Window will appear on your screen. Like a slot machine, the items will rapidly cycle, then slow to a stop, determining which item you will receive. The item you get might enable you to score a come-from-behind win just before crossing the finish line.

Item Window

Kart-Affecting Items

Mushroom ✕
Temporarily boosts your speed.

Triple Mushrooms ✕
Three temporary speed boosts - use anytime.

Super Mushroom ✕
For a limited time, you can boost your speed as many times as you want.

Super Star ✕
For a limited time, you will be invincible. Bananas, shells and enemies will not affect you. While invincible, you can hurt the other racers too!

Attack All

Thunder Bolt ✕
Use this to attack every other Kart. When struck by a thunder bolt, a Kart will shrink, its speed will drop and it can easily be crushed.

Snatching Item

Boo

Attacking Opponents Ahead

Green Shell
This shell travels in a straight line and you'll cause them to crash.

Triple Green Shell ✮
This item gives you three shell attacks. Hit a banana and you will not slip.

Red Shell ✮
When fired, the Red Shell will track its target, increasing your chance of hitting an opponent.

Triple Red Shell ✮
Triple shell will rotate around your Kart, making an effective barrier against rival Karts.

Spiny Shell ✕
Spiny's Shell will chase the Kart in the lead. Along the way, if there are one or more Karts in its path, they will suffer the consequences.

Placing Items on the Course

Banana ✮
Hit a banana and you will slip. It's very effective when placed on a corner.

Banana Bunch ✮
Five bananas will trail behind your Kart. You can place one banana at a time where you want.

Fake Item
This bomb looks just like an Item Box. If you place it near a real Item Box, it might be hard to tell the difference.

* When the Item Window is visible, you cannot pick up a new item even when you pass through an Item Box.

Items marked with a ✮ can be used multiple times.
Press the Z button to activate the item, then press it again each time you want to use the item.

Items marked with an ✕ do not appear in the Battle Mode.
